

OCEAN FREIGHT

United Cargo Management supports our customers by creating unique and customized logistics solutions that help our customers gain a competitive advantage.

We have enjoyed our customers long term support by leveraging our partnerships with the carriers using proprietary negotiated contracts to ensure the most competitive rates possible are passed on to our customers. Our tenured relationship with The MarcoPoloLine Group adds strength globally to create velocity, consistency and market leading pricing.

Our experience, knowledge and aggressiveness help us to consistently offer solutions to each opportunity our customers are looking to develop and to help them improve their profitability.

AIR FREIGHT

We offer a full suite of origin to destination solutions for Air, Expedite and Project/ Charter type cargoes. Many of the solutions we create combine different services and providers that we manage to meet your required delivery dates. Our scope and range of services cover shipments to and from North America as well as many shipments that move intra-Asia, Asia to North and South America, Middle East, Africa and Europe.

CUSTOMIZED LOGISTICS

UCM has a history of challenging logistics opportunities most NVOCC's and shipping lines simply say can't be done - and we creatively determine best in class logistical strategies. Examples of this is found in our Mining, Chinook Helicopter and Land Rover logistics solutions. Anyone can do the easy, few rise to the impossible - UCM can!
