

CROSS-BORDER SOLUTIONS ARE SO MUCH EASIER IF YOU'VE TAMED THE BORDER BEFORE YOU GET THERE

- **Warehouses with border proximity**
- **Customs Release**
- **Border crossing**
- **Freight tracking mechanisms**
- **Cold/Dry storage & distribution**
- **Rail spur access**
- **24/7 operations**

Keeping your supply chain moving is our top priority. So when it comes to providing cross-border solutions, the fastest way for FTL and LTL cargo to cross is by handling expectations at the Mexico/US border before you arrive.

OUR SERVICES INCLUDE:

Easy Access:

- Our facility is located just 4.3 miles from the Laredo World Trade Bridge.

Cross Border:

- Expedited services between Mexico and the U.S. Customs Brokerage in Mexico and the U.S with one account executive covering all your needs.

Warehousing and Inventory Management:

- Order assembly, pick and pack, quality controls available online 24/7 with locations close to the Mexican border.

Truck Yard Services:

- Fleet management and trailer storage to increase your service coverage.

Government Certification Process and Handling:

- Helping you to comply with international trade requirements.

Cold Storage and Transportation

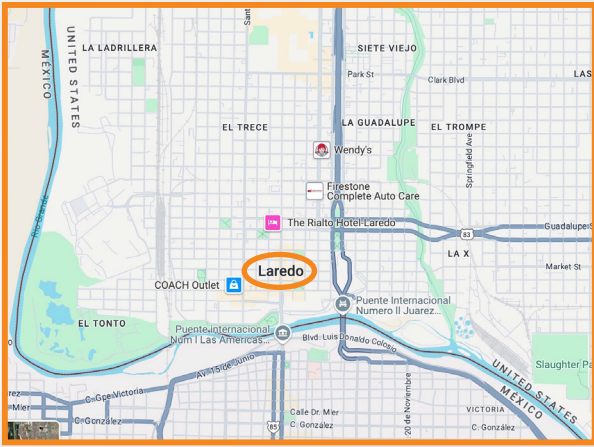

- Certified to handle a wide range of products and focused on protecting the cold chain.

“Conditions at the border are constantly in flux, so we’re constantly at the border to keep the gears moving and assure your cargo doesn’t experience undue delays in either direction.”

- Carlton W. “Tres” Blair
CEO, UCM Charleston

- **Seamless Customs Release** allows you to avoid delays at the border.
- **Pre-arrival documentation preparation** is completed in advance for Mexican and American customs. Avoid delays through one sole framework used to streamline customs, drayage, and government inspection procedures.
- **Monitor customs inspection progress and time stamps** alongside CBP inspections through our on-site stationed personnel, which provide live updates on In/Out inspections with alerts and offers a 360 approach to logistics.
- From cargo inspections and inventory control at our warehouse, to transportation to and from origin, **we monitor pallet and load integrity, product quality controls, vendor Inventory management an Just in Time delivery framework.**
- **Photos of each load at arrival and pre-dispatch** confirm product integrity or needed rework of any pallet or carton that does not meet delivery standards.

Laredo, TX. If it were any closer to the border, it would be in Mexico. Laredo is our home base and the heart of our facilities network on both sides of the southern border and inland.

Location, location, location. To help keep your supply chain moving, our support centers are located at or near an abundance of transfer hubs.
